TO: Mr. T. Vinton Smith  
Office of the State Engineer  
Salt Lake City, Utah

DATE: 12-16-69

RE:

Dear Mr. Smith:

On March 5, 1969 you wrote to our office and asked if we would write a bond for Mr. Arel Chamberlain for the capacity of Water Commissioner for East Fork Virgin River Distribution System to be effective April 1, 1969. We wrote this bond and the company requested an application and financial statement in support of the bond. We sent these forms to Mr. Chamberlain and then followed up many times trying to get them completed and returned so that the company file could be completed. We never received any response to any of our correspondence and therefore the company has advised us as follows. "In view of the fact that Mr. Chamberlain is unwilling to cooperate with us by sending in a completed application, please be advised that we will be unwilling to renew this bond when it comes up for renewal in April, 1970". We were wondering if you could be on any help in acquiring the needed items. If they cannot be completed then we will not be able to renew the bond in April. I am enclosing the form that needs to be completed in reference to this bond and it may be that you can have some influence in getting it completed in detail and signed. We will await word from you on this matter.
